## What does it mean to link my accounts?

Sarah Wood - 2020-09-17 - General

You can link your NRAO and ALMA users accounts. This means you are then allowed you to navigate between help desk systems with one click and activate advanced features available in both help desks.

If you click the link to the left '**Add Account Linkage**', you will be given the following options:

- **Link accounts!** This will take you to the ALMA Science Portal profile page  
Click on the "Account linking" tab, choose an institution, and follow the instructions
- **Learn more...** Read more about the benefits of linking accounts and the account linkage process
- **Cancel** Simply return to the ALMA help desk
