New VLA/VLBA Disk Shipping Requests department

2022-03-22 - Heidi Medlin - General

Observers may request datasets from the archive and/or data from nm-accounts to be downloaded to hard drive(s) and then shipped to them. To accommodate disk shipping requests for VLA and VLBA data, we have created a new department: VLA/VLBA Disk Shipping Requests. The total data requested must be greater than 300GB. For further information, please review our [Data Shipment Policy](#).
